

The Paycheck Fairness Act is a common-sense piece of legislation that will ensure equal pay for all hardworking Americans. There is no basis for which pay discrimination should ever exist, and allowing this to continue undermines our Nation's economic recovery and our commitment to equality.

Mr. Speaker, fairness and equality are basic fundamentals that we must promote as a democratic Nation. Allowing pay discrimination on the basis of sex is not consistent with those principles, and I urge this Congress to take action against it. The Paycheck Fairness Act will provide a solid foundation on which we can build to promote fairness and equality in the workplace. As an original cosponsor of this important piece of legislation, I will continue to advocate for the rights of women all across the country.

ENERGY AND WATER DEVELOPMENT
AND RELATED AGENCIES
APPROPRIATIONS ACT, 2013

SPEECH OF

HON. RUSS CARNAHAN

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Friday, June 1, 2012

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 5325) making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2013, and for other purposes:

Mr. CARNAHAN. Mr. Chair, I rise in support of the Moran Amendment.

The streams, lakes, and wetlands of America are in desperate need of protection. These areas provide citizens with clean drinking water, are essential to sports and recreation, and, importantly to my district in St. Louis, protect cities from floods. The Army Corps of Engineers, and the Environmental Protection Agency developed a guidance plan this past summer to clarify the jurisdiction of the Clean Water Act, the paramount piece of legislation protecting these important areas. This guidance will confirm the water protections we depend on to keep our water safe. Thus, I sup-

port the Moran Amendment which would eliminate Section 110. Section 110 prevents the Corps from doing a critical part of its job: maintaining our country's significant water resources.

The Corps has already proposed guidance that would significantly clarify the Clean Water Act and ensure the safety of American waterways. Without these clarifications, 20 million acres of wetlands will continue to be left without legal protections. The American public depends on this Act for clean drinking water, protection from flood waters, and maintaining the habitats of important wildlife. The American public depends on us to support the Corps and place safeguards to keep our water clean. I urge my colleagues to vote in support of the Moran Amendment and not prevent the Army Corp of Engineers from doing their job. We must allow the Army Corps of Engineers to clarify the scope of the Clean Water Act, so that Americans can trust their waterways are clean.
